VOLUME 70

ELBA, ALABAMA 36323

THURSDAY, JANUARY 4, 1968

NUMBER 24

Aliens Reminded Of Immigration Rules

Ft. Rucker Army personnel and their dependents are reminded that the Immigration and Nationality Act requires all aliens in the United States and its possessions on Jan. 1 of each year, with few exceptions, to report their addresses to the Attorney General during January.

Aliens temporarily absent from the United States during January must report their addresses within 10 days of return to this country. Cards with which this report can be made are available at any United States post office during January. The cards should be filled out and returned to the clerk from whom received.

Elbans To Tour Ft. Rucker Today

A group of 18 Elba businessmen will leave at 8 a.m. today (Thursday) for a tour of Ft. Rucker facilities, arranged by the Information Office at the Army base. Co-ordinating the tour is Mr. Hubert A. Kassner, acting information officer at the base.

The tour will include briefing on post, visit to helicopter training fields, tour of a training base, display of helicopter weapons system and observation of aircraft mechanic training.

Social Security Benefits Increase In March

President Johnson signed into law Tuesday night a Social Security Bill that will bring faster benefit checks to 24 million people starting in March. He said it will lift a million Americans above the poverty line.

The "Bear" Has Desire For Return Engagement

Coach Paul "Bear" Bryant of Alabama's Crimson Tide said Tuesday as he left Dallas with his team bound for home that "we'd like to come back."

This despite a 20-16 defeat at the hands of the Texas Aggies in the Cotton Bowl Monday.

Hospital Rates Increase

Administrators Bill Pierce of the Elba General Hospital has announced that hospital room rates were increased effective January 1st due to the ever increasing cost of labor and other operating expenses. This increase in rates puts the local hospital in line with some surrounding hospitals but still lower than some others.

The current adjusted room prices are as follows: semi-private, \$20.00 a day; semi-private with bath, \$22.00 a day; private rooms increased to \$28.00 a day; emergency room use is increased from \$2.00 a day to \$3.00 a day and guest trays from the dining room are \$1.50.

Rescue Squad Elects New Officers

At the December meeting of the Elba Rescue Squad, new officers were elected for 1968. Maxwell Reeves was elected Captain, Charles Crook, 1st Lieutenant, Bobby Boutwell, Elkin Williamson, 2nd Lieutenant (team captain), Marvin McIlwain, Secretary and Treasurer and Leo Foreman, Equipment Officer.

The Rescue Squad has received financial and moral support from the people of Elba during its first year of service.

The next meeting of the squad will be on January 8th and every member is urged to be present. The meeting place will be changed to the Courthouse annex.

Quarterback Club Plans Banquet

The Elba Quarterback Club has announced plans for an athletic banquet to be held February 3rd in the Elba Elementary Cafeteria. Speaker for the event will be Mr. Pie Vann, head coach at the University of Southern Mississippi.

Judge Erle Paul is in charge of making all the arrangements for the event.

Bloodmobile To Visit Elba On January 15

The Red Cross Bloodmobile will visit Elba on January 15th from 12 until 6 p.m., according to bloodmobile chairman, Mrs. Evelyn Duncan.

It will be located in the Westside Baptist Church social hall and the local citizens are urged to donate a pint of blood. Dorsey Trailers does not participate in the January collection, therefore it is up to the townspeople to make it a success.

PARTICIPANTS in the Coffee County 100 Bushel Corn Club attending the recognition dinner in Dothan were, left to right: J.J. Jones, Allen Weeks, Jimmy Martin, Roy Ellis, Comer Sims, Joe Wilson, A.W. Wilson, Leola Weeks, L.B. McCall, Charles Hayes, Bob Godwin, and Extension Farm Agent Dan J. Presley. These men were the top producers in the 1967 Corn Contest which was sponsored by the Enterprise Chamber of Commerce.

Beef Short Course Planned

"Alabama Stocker Steer Projection—A growth industry" will be the theme of the 1968 Beef Cattle Short Course at Auburn University, January 11 and 12.

All phases of cattle growing and feeding will be discussed at the two-day short course, says Tom Casaday, county Extension chairman. Topics include: the demand for fed cattle, feeding systems, cost per

pound of gain, amount of feed needed and health and parasite problems.

On the program will be out-of-state speakers, Alabama cattlemen who have fed out stockers and Auburn University Extension Service and Experiment Station personnel.

There are about 665,000 calves weaned in the state each year, points out Casaday. And about two thirds of them go to out-of-state feedlots.

Casaday says that cattlemen could add \$65 to \$85 to the value of each of these calves by grazing or feeding them six to eight months right here in Alabama.

MAKE A NEW YEAR'S RESOLUTION TO SUPPORT THE ELBA RESCUE SQUAD DURING 1968

TRADE AT HOME

Legion Plans Important Meeting Tonight

Culver Post 42 of the American Legion and Ladies Auxiliary will hold their regular meeting Thursday night (tonight) at 7 p.m. in the Courthouse Annex (old Church of Christ building). A covered dish supper will be served to all members and eligible members.

Special business to be discussed is the need for a new Post home and the possible further development of the Legion Park on the Troy Highway.

PETE DORSEY is shown with a 216 pound Warsaw Grouper he caught in the Gulf of Mexico on a fishing trip in December. This is the second gigantic grouper that Dorsey and an avid fisherman, has reported from the Gulf.

The Act provides serious penalties for willful failure to submit the report. Compliance with this requirement is, therefore, of importance to all aliens in the Armed Forces of the United States and to members of the Armed Forces having relatives who are not citizens but residents of this country.

ALITTLE LATE, BUT IT'S THE FIRST - Noel Christopher Hustwit, the first baby born in Lyster Army Hospital, Ft. Rucker, this year, cries out Happy New Year with all the force his 6 pounds and 14 ounces will allow. Dr. Raphael Marciano delivered the son of Warrant Officer Candidate and Mrs. John W. Hustwit at 1:25 p.m. Jan. 1. Noel's father came to Ft. Rucker in October to attend the Warrant Officer Rotary Wing Aviator Course, Class 67-23. WOC Hustwit and his wife Paula reside at 1134 Carroll Ave. in Ozark.

No New Year's babies were reported at Elba General Hospital through Wednesday morning January 3rd.

ELBA LITTLE THEATRE TO PRESENT PLAY

The Elba Little Theatre is beginning preparation for a new play to be put on in February. The title is "Everybody Loves Opal" by John Patrick. This play will be directed by Mr. Robert Morgan, an Enterprise Jr. College student from Jacksonville, Florida.

The Elba Little Theatre is beginning preparation for a new play to be put on in February. The title is "Everybody Loves Opal" by John Patrick. This play will be directed by Mr. Robert Morgan, an Enterprise Jr. College student from Jacksonville, Florida.

POSTAL RATES INCREASE JANUARY 7TH

Increased rates for all classes of mail except parcel post and international mail will go into effect January 7. Postmaster Robert Cooper reminded postal customers recently, "Even with the new rates of six cents for first-class mail and 10 cents for air mail, postal service is still a real bargain."

Postmaster Cooper declared, "For six cents you can send a letter to any of the 50 states, to any United States Territory or possession, to Canada or Mexico, or to an American serviceman stationed anywhere in the world."

Postmaster Cooper pointed out that the new rate for postcards will be five cents and for air mail post cards eight cents. He said the added cent in the letter rate is a 20 per cent increase compared to a 24 per cent increase in rates for mailing newspapers and magazines and a 34 percent hike for advertising circulars, "occupant" mail, and other material in the third-class category.

The new rate of six cents per ounce for first-class mail applies up to 13 ounces and the new rate of 10 cents per ounce for air mail applies up to 7

ounces. Under the new rate structure all first-class mail over 13 ounces and all air mail over 7 ounces will be merged into a single category.

These heavier pieces of subject to the single rate schedule will be delivered by the fastest available means of transportation. A flat rate of 80 cents will be charged for all material in this category up to one pound. For air mail weighing more than one pound, the present air parcel post rates will continue to apply except that the postage on matter weighing between one and

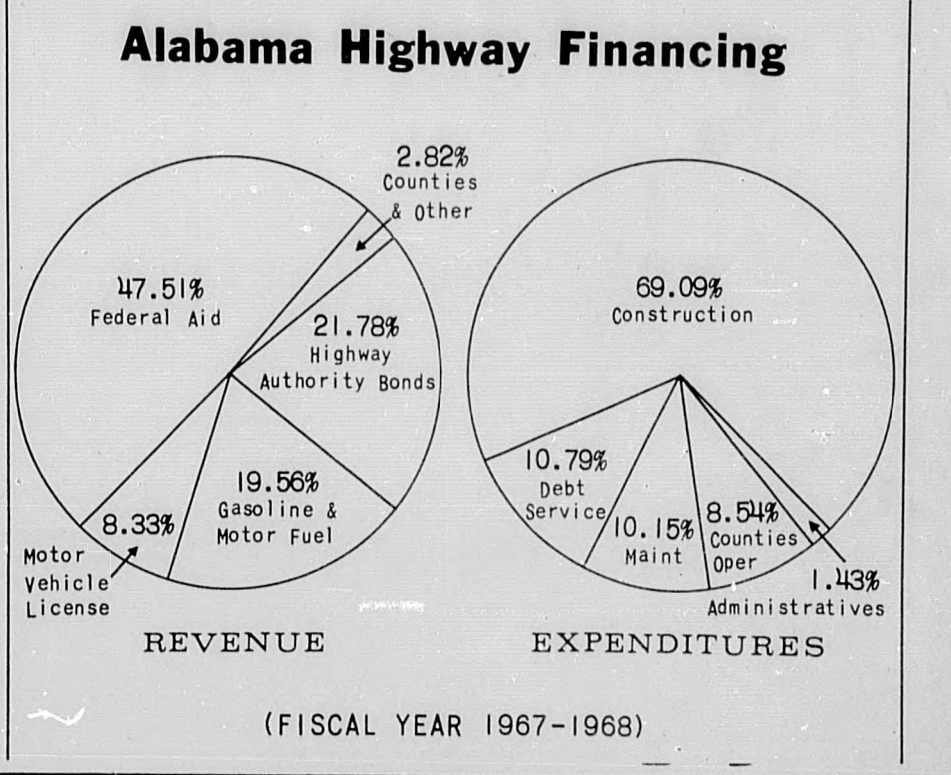

five pounds will change at half-pound intervals rather than one pound intervals. Postmaster Cooper said that the new rate structure will mean a reduction of postage on some parcels. Another rate change that will affect the general public is the increase from four to six cents for the first two ounces of individual pieces of third-class mail. Unsealed greeting cards may be sent at this rate. Postmaster Cooper said.

He emphasized that the new rate on unsealed greeting cards will not go into effect until January 7 and until then they can be mailed at the old rate of four cents.

Postmaster Cooper also noted that effective January 7 special handling will be available on third-class parcels weighing between eight and sixteen ounces. Special handling has not been available on these parcels since 1958, when packages weighing between eight and sixteen ounces were transferred from fourth to third-class mail. There will be no changes in the charges for special delivery, special handling, registered mail, certified mail, cash on delivery or insurance, Postmaster Cooper said.

"We have an ample supply of one-cent stamps on hand," Postmaster Cooper said, "for those people who have five-cent stamps and need one-cent stamps to make up the postage required under the new rate."

Higher rates will also go into effect January 7 for all categories of second-class mail, bulk rate third-class mail, controlled circulation mail, and the educational materials category of fourth-class mail. Mailers using these classes who need information on the new rates should contact the local Cooper said.

Ball Team Hunters Cautioned About Watches Plane Shooting In Flood-Water Crash & Burn Conditions

A chartered airliner, landing to pick up the University of Georgia basketball team, crashed and burned Monday night as the team watched in horror.

The three crew members aboard escaped without injury but the plane, a twin-engine Martin 404, was destroyed. There were no passengers aboard the craft.

"The boys that saw it said it looked like it landed on the front gear and nosed into the runway," Georgia Coach Ken Rosemond said. "It was like something you see in the movies, but never think it will happen to you."

Rosemond said the 18 members of the Georgia party were waiting for the airplane at 10:15 p.m. in Oxford's Mississippi airport terminal about two miles northwest of town. Georgia had defeated the University of Mississippi in a Southeastern Conference rival, 70-64.

The team spent the night in a downtown motel.

IT'S UP TO YOU

By Howard E. Kershner, L.H.D.

Private Sector and Unemployment

A NATIONAL organization of civic, business and city government leaders has called upon the Federal government to provide an emergency work program for the unemployed.

A statement issued by the coalition said in part: "When the private sector is unable to provide employment to those who are both able and willing to work then, in a free society, the government must of necessity assume the responsibility and act as the employer."

After all the handiwork of excessive taxation, over-expanded regulation, excessive reporting, minimum wage laws and privileges and immunities extended to unions, for government to repudiate the "private sector" for not being able to employ even persons without skills and education would be like tying a man's hands behind his back and then reproaching him for being unable to defend himself.

Before condemning "the private sector" for being "unable to provide employment" it would be well to examine the facts:

1. The number of employed persons in our country is greater than it has ever been.
2. Almost every person with any skill or competence who wants to work has a job.
3. Our newspapers are filled with ads offering jobs to competent persons.
4. Most of our unemployment is within the ranks of relatively uneducated and unskilled youth.
5. Most of these latter could be working if minimum wage laws and union rules did not insist upon a wage in excess of their earning capacity.
6. If these people were allowed to work at apprentice wages while acquiring skills and experience, they could earn something while preparing themselves for better wages.
7. No employer can long afford to pay a wage in excess of the productive capacity of the worker.
8. Unemployment is caused by laws and union rules which demand that this be done.
9. Unemployment is, therefore, not the fault of the private sector, but is caused by laws and union rules.

The Coalition urged the nation to take bold and immediate action to fulfill the national need to provide a decent home and a suitable living environment for every American family. "Very well," say multitudes of people. "We will sit down and wait for the government to provide a decent home and a suitable environment for every American family." Multitudes will see no reason to work hard and long to provide a home for themselves when the government will do it for them.

Survivors include his wife, Mrs. Nell Chapman, three daughters, Misses Gayle, Reba and Pamela Chapman, Geneva; his parents, Mr. and Mrs. Elie A. Chapman, Troy, Rt. 4; two brothers, Pruitt Chapman, Prattville, and Marvin Chapman, Freeport, Fla.; and two sisters, Mrs. Glen Byrd Dothan, and Mrs. Dickins Griffin, Brundidge, Rt. 1.

Alabama hunters were cautioned Wednesday about regulations of the Department of Conservation concerning hunting in flood-water conditions.

Charles D. Kelley, Chief of the Department's Game and Fish Division, said it is illegal to hunt or attempt to hunt or take any species of resident bird or animal taking refuge in, swimming through, flying over, or resting in a tree, brush, or log standing or floating in any floodwaters, or backwaters or taking refuge on any island less than four acres in size created by any such flood or backwaters. He states further that it is illegal to hunt from any power driven boat or to hunt the banks of any stream or lake without the express permission of the landowner or controller of such land.

Major Edward S. Farish, Chief Enforcement Officer for the Game and Fish Division, said conservation officers are keeping the flood areas under close surveillance and that he is prepared to utilize whatever enforcement personnel necessary to prevent excessive violations. He said he has extra personnel on duty now in the southwestern part of the state and can bring others in on short notice.

"We plan to cover both the land and water areas both day and night to assure that our wildlife populations are not unduly damaged as a result of flooded conditions," Farish said. "We request the full cooperation of the public in an effort to keep hunting legal throughout the troubled areas."

How can I prove I was born?" Harry N. Scott, District Social Security Manager, says that question is received almost daily in his office.

According to Mr. Scott, the question about proof of age is one that worries a great many people. Birth certificates were not issued to many elderly citizens at the time of their birth. But there are many other ways to prove their ages, some of the records that can be used are baptismal records, school records, and old insurance policies which show date of birth.

A very good proof could be an early Federal Census Record. A Federal Census record has been taken every ten years since the country was first started. If a person who is nearing age 65 has an old record that he isn't sure of, he should get in touch with the Social Security Office now. He should not wait until the December 23rd with forms for requesting a Federal Census Record can be obtained at the Social Security Office. The staff will be glad to help complete the request if he needs assistance. Mr. Scott explained.

The Dothan District office is in the Federal Building, 100 West Troy Street, telephone 794-3161. The office is open 8:45 a.m. to 5:00 p.m. each day, Monday through Friday, except national holidays. The office is also open on Saturdays from 9:00 a.m. to 12:00 noon for the convenience of those people who are unable to come to the office during the regular hours.

He is survived by his widow, Leselle Jacobs Mickle; one daughter, Mrs. Mary Kelley, Elba; one son, William E. Mickle, Elba; one brother, Willie Mickle, Birmingham and two sisters, Mrs. Katie Wallace and Mrs. Estelle Reed, both of Birmingham.

Accident Kills F.E. Chapman

Festus Elgin Chapman, 40, Geneva, district supervisor of Benson Wholesale Co., was killed instantly Wednesday night, December 27, in a traffic accident near Camilla, Ga. Officers said his car skidded on wet pavement on U. S. Hwy. 91 between Camilla and Newton. The automobile overturned and Chapman was thrown out and crushed beneath it, officers said.

A native of Pike County, Mr. Chapman had worked for Benson Wholesale (distributors for Piggly Wiggly) for 19 years. He was a veteran of World War II, a Baptist, a Mason, and a member of the American Legion.

Survivors include his wife, Mrs. Nell Chapman, three daughters, Misses Gayle, Reba and Pamela Chapman, Geneva; his parents, Mr. and Mrs. Elie A. Chapman, Troy, Rt. 4; two brothers, Pruitt Chapman, Prattville, and Marvin Chapman, Freeport, Fla.; and two sisters, Mrs. Glen Byrd Dothan, and Mrs. Dickins Griffin, Brundidge, Rt. 1.

Business Aid Urged to Help Rebuild Cities

Electricity is a very silent operator and it can be just as dangerous as it is useful.

All hand tools, appliances and other equipment should be wired with a three wire cord, says J. T. Gaillard, Extension rural civil defense specialist. He explains that the third wire is the ground and if anything goes wrong inside the equipment, the electricity will be grounded and not give you a shock.

Grounded circuits are especially important when equipment is used outdoors, says Gaillard. Circuits of 110-120 volts can be fatal.

Gaillard offers these reminders for safe use of electricity outdoors:

1. Always use the three wire circuit providing the protective ground wire.

2. Do not let plugs, connectors or extension cords get wet from rain. All cords and connections should be off the ground.

3. Don't use ordinary extension cords to run 50 or 100 feet out in the yard to operate any outdoor equipment. Most extension cords are very small wire and will not handle very much load. Your local electrical supplier can advise you on the installation of outside wiring and connections that will be safe.

4. Beware of three, four and five connections into one outlet. You are overloading that circuit regarding what equipment is being operated from it.

Check with your local

KNOWING HOW—COULD SAVE A LIFE!

A DIME COULD SAVE A LIFE

One of the first things a youngster should be taught today is how to use the telephone. Even before learning to read and write, each child should know how to reach the operator. As case histories of the National Public Safety Council's publication "Family Safety" show, even a little four-year old saved her mother's life because she knew how to reach the telephone operator.

Every child of three or older can be taught to speak his name and address clearly and should know how to make an emergency phone call. The simple act of dialing "0" might save his life or make it possible to save yours.

Every child old enough to be away from home should be checked out on the use of a pay phone. He should be taught to lift the receiver off the hook, drop the coin in the slot that matches it in size, listen for the dial tone, and then dial or punch "0" and wait for the voice of the lady who will always be able to get the needed help.

We all should take similar precautions and insist that each child has at least one dime in change—reserved for that all-important telephone call. Remember that dime—in a real emergency it could save a life!

Attend The Church Of Your Choice Sunday

You know what precision it requires to build a bridge, or an engine, or a watch. The same exactness goes into the construction of a pipe organ.

But the men who make pipe organs, like all others who build, have a feeling for the USE of their product.

An organ will lead hundreds in their worship of God. It will support a talented choir in the rendition of a sacred cantata. Or it will blend with a host of untrained voices to raise a stirring hymn to God. It will sing softly while Christians commune, or thunder majestically a great recession.

And yet this valuable organ whose creation requires such skill and precision is secondary in the life of the Church. It is simply an instrument, like this weekly advertisement, to help the Church fulfill its Mission. That Mission is to lead you, and your family, and your world, to the Lord.

When the organ calls men to worship — be there!

THE CHURCH FOR ALL

ALL FOR THE CHURCH

The church is the greatest factor in

the building of character and

good citizenship. It is a workshop

of spiritual values. Without a strong

Church, neither democracy nor social

justice can survive. There are four

reasons why every person should at

least once read this booklet and

the Church. They are: (1) To know

the value of his community and nation. (2)

For the sake of the Church itself, which

needs his moral and material support.

Plan to go to church regularly, and read

your Bible daily.

By Tom Casaday, County Extension Chairman

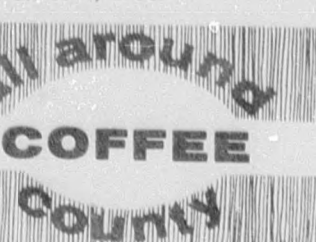

NEMATODES

Oscar Barefoot of Route One, New Brockton, told me a few days ago that he had gotten where he couldn't grow any vegetables in his garden. The plants would come up and about the time they started bearing or before, they would wilt and blight and fail to produce. We took a sample of soil from his garden and sent it to the nematode analysis lab at Auburn. They sent a report showing that his garden had a heavy population of the root knot nematode.

I am sure that dozens of Coffee County gardeners are having the same problem. The folks at Auburn recommend anyone of several treatments, but probably the easiest will be to have 30% Nema-gon granules mixed with the fertilizer. Then this mixture can be placed in the ground as "teaching tools" for about six inches deep as the seed are planted. Contact me if you would like to have a nematode analysis check made on your garden.

PEANUTS

We hear a lot about Virginia and North Carolina peanut production, W.

By Tom Casaday, County Extension Chairman

H. Kinard, county agent in Covington County, toured these two states back in July of his report.

"The peanut areas of Virginia and North Carolina join each other at the States line. This area lies in the Eastern portion of both states and encompasses approximately ten counties in each state.

The State of Virginia has a peanut allotment of 105,000 acres. North Carolina has an allotment of 170,000 acres. The average yield per acre for both states is approximately 2,300 pounds. Alabama has approximately 225,000 acres of peanuts and the average yield is about 1400 pounds per acre.

Both states lean heavily on "farm-demonstrations" as a source of research information as well as in the Eastern portion of both states and encompasses approximately ten counties in each state.

The soil are similar to that of Alabama. Norfolk sandy loam being predominant. In general the soils of the point area of these states are at a higher fertility level than those of Alabama.

DR. Walter Sowell of our

SOIL FERTILITY

Dr. Walter Sowell of our

soil testing lab at Auburn keeps emphasizing the importance of keeping soil fertility high. Sowell points out that pH—which is the degree of soil acidity—is very important. For example, with low pH potassium is not effective in producing crops no matter how much is used. In fact, if the pH is low and quite a bit of potash is used, it will lower yields. I am saying this to urge all Coffee County farmers to soil test in January. Supplies are available at most of our agribusiness places and Elba. If you will bring the samples in, we will package them and get them in the mail for you, approximately ten counties in each state.

more than 500 lives each year. The delegation recognized that operator error cannot be totally controlled. Therefore, tractor safety—turn accidents will likely continue. The thinking is the protective frames and crush resistance of the tractor must be increased to protect operators. We loose several folks each year in the Wiregrass due to tractor accidents. I am glad to see the farm equipment industry and the American Medical Association taking steps to cut down on these losses.

FAT CALVES Extension Farm Agent Dan Presley and I had the pleasure of visiting several of the 4-H boys and girls who are feeding out calves for the shows in the spring. Ray Matthews, the son of Mr. and Mrs. William Matthews, has a lot of people number of years and he has two fine ones again this year. Close to him in the New Home Community is Greg Bowman feeding calves for the first time. His calf is making good growth and feeding and grooming very good progress. Two calves that are doing extremely well belong to Greg Motley in the Ashbury Community.

Presley is making regular visits to the boys and girls giving instructions on feeding and grooming training. I know that the Bama show is going to be the best one in many years.

Barnes Strives For Quality In Registered Hog Business

Carlton Barnes' goal in the purchased registered Hampshire hog business is to supply farmers with good breeding stock at prices they can afford to pay.

"I'll sell registered bred gilts from \$10 to \$15 above market price," said Barnes. "This won't hold the farmer up, and I can make a nice profit, too. It will also spread good quality hogs around and help rid the area of low quality, non meat-type hogs."

Another aim of Barnes relates Extension Farm Agent J. R. Speed, is to sell unrelated gilts and boars to the same man. To do this Barnes keeps three unrelated boars and

two sets of unrelated sows. He has 15 registered Hampshire hogs in his business and several more that are not registered. He has a place where he can afford to pay.

"The registered Hampshire breeder keeps boars until they are about five years old. He breeds the service to 12 to 15 breedings twice a year."

The retired army major served in the army 21 years. He now is a civil service worker at Fort Rucker. He hopes to build his herd to give him a day retirement income. He has a herd of 150 sows and pigs.

"I also plan to let the hog business carry my three children through

school," said Barnes. "Phillip, 10, and Richard, 8, take pride in the business now. Both help with feeding and tending to sows at farrowing."

"Mrs. Barnes helps daily with the operation, serving as our vet and recordkeeper. And Karla, our three-year old daughter, helps the hog business. She helps feed the little pigs."

Barnes grows all the corn for his hogs—about 45 acres—and plants oats and millet for grazing.

Persons admitted to the Elba General Hospital during the period of December 28, thru January 2, 1968, were the following:

Lloyd Jordan, Rosie Lee Simms, Deborah Harrison, Escar Harrison, Charles Arnold, Ruth Marley, Janet Miller, J. J. Chancellor, Alton Brown, Booker Elliott, Billy Burk, George Grider, Billy Gibbs, Elizabeth Jackson, James Compton, Glenda Marler, Hollis Garry, Willie Wilson, Terrell Lee Grogg, Jane Stephens, Vera Mae Smith, Shirley Ann Bedsole, Anna S. Fuller, Little M. Vaughan, Dorothy Sauls, Ruth Harrison, Felix Parker, Foyce Marle Drevrey, Cornelia Bailey, Jessie Morris, Pat Hudson.

Persons discharged as of this time are: Lloyd Jordan, Rosie Lee Simms, Escar Harrison, Charles K. Arnold, Janet Miller, J. J. Chancellor, Alton Brown, Booker Elliott, Billy Burk, George Grider, Billy Gibbs, Elizabeth Jackson, James Compton, Glenda Marler, Willie Wilson, Jane Stephens, Rosa Bell Stewart, John F. Kendrick, Ella Crocker, Lilly J. Brock (expired), William P. SNAKE, SNAKE PAGEANT (March 7-10).

The nationally televised Senior Bowl football game pits top senior stars of the nation against each other on North and South squads in their first "play for pay" battle; the Jaycees of the South Alabama town of Opp will award a prize for the largest number of rattlesnakes caught in a hunt which began with the arrival of 1968 stage rattlesnake barbeque and choose a rodeo queen; Mohle's second nationally televised event will search out the nation's ideal high school senior girl; National recognition and a scholarship are awarded based on talent, ambition, leadership, religious interest and lady-like pose and demeanor.

Alabama's top attractions spotlighted in the National Association of Travel Organizations' "Top Twenty" travel events share honors with, among others, Colonial Weekends in Williamsburg, Va.; International Ski Jump Tournaments, Ill.; Nights in Chinatown, Honolulu, Winter Carnival, Colorado; Carnival Season, San Juan, P. R.; National Bobbed Championships, N.Y.; Little Rock Jazz Festival, Ark. and the Caribbean Queen Festival, Virgin Islands.

The Cotton Bowl date kicking off 1968 (Alabama and Texas A & M) was included in a special listing of post season football classics.

Some other top state events are: Azalea Trail Queen's Coronation, Mobile, Jan. 15; Mardi Gras, Natchez, Feb. 10-27; National Shooting Dog Championships, Union Springs, Ala., March 1-3; and the monthly Marching Band Show at Bell-Ingraham Gardens, Theodore, Ala., March 1-3.

Donald Noli, Executive Administrator, 12-21-68.

ELBA TIGERS NAMED TO ALL-SEC FOOTBALL TEAM

LEON AKINS

The South Alabama Conference coaches met in December and voted on their choice for an All-SEC football team and a coach to lead them.

Named to the team were Fullback David Stokes and End Joe Free of the Elba Tigers. Stokes received the most votes of any member of the All-SEC team, selected to head the elite group of players was Elba head coach Leon Akins, who led the Elba Tigers to an 8-2 season immediately after taking over the team and at a time when many were discounting Elba as a power in the conference during the 1967 season.

NUMBER 25

Social Security Checks To Increase March 2nd

The changes in the social security law signed by President Johnson on January 2, 1968 will mean a benefit increase of at least 15 percent in the social security checks of about 21,000 men, women, and children in the Dothan area.

Harry N. Scott, District Manager for Social Security in Dothan, stated that the Social Security Administration's high speed electronic computers are figuring the increases for all 23,700,000 social security beneficiaries around the country and will finish the task in time to include the increased checks delivered early in March.

Beneficiaries need not take any action to get the increase. It will be sent to them automatically.

Residents of this area can expect the first increased check on Saturday, March 2nd, one day earlier than the usual 3rd of the month delivery of social security benefit checks under a recent arrangement with the Treasury Department and the Post Office.

Social security checks are delivered a day early instead of a day late when the 3rd of the month falls on a Sunday or holiday.

Some social security beneficiaries will receive more than a 13 percent increase. The minimum benefit for workers retiring at 65 is increased from \$44 to \$55. The average benefit payable to a retired worker, about \$86 will be raised to \$98, an increase of \$12 a month. The average couple's benefit, now \$145, will go up to \$165; and the average aged widow's benefit will rise \$11, from the current average of \$75 to \$86.

The last increase in the social security benefits amounted to 7 percent, and was effective January 1965.

About 3 out of every 10 beneficiaries receiving an increased check early in March will be someone under 65, many of them the children of working fathers who have died. The value of social security survivors insurance is often overlooked. Social security is more than just a retirement system. It is also income protection for the family in case of the breadwinner's death or disability.

Mr. Scott also explained that under the amended law, maximum payments to families now on the social security benefit rolls will go up from the currently payable maximum of \$399.20 a month to \$422.40.

In the future the maximum payable monthly to any one family can be as high as \$434.40.

The Elba City Board of Education, during their regular meeting on January 4, 1968, appointed assistant principals for all schools in the system. The following is a list of the appointments with their respective schools:

Mr. Wayland Sharpless, Elba High School; Mrs. Addieleen Prescott, Elba Elementary School; Mr. Gaynes Water, Mulberry Heights High School; Mrs. Erle Crook, Mulberry Heights Elementary school.

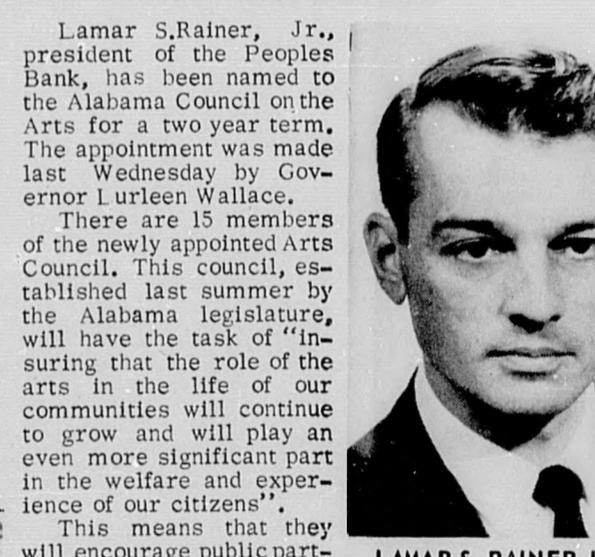

Two Pound Baby Survives

Little Wendy Nelson, almost six pounds now but when she was born October 15th, she tipped the scales at about 2 pounds and was only 14 inches long! Wendy is the daughter of Mr. and Mrs. R. V. Nelson, Rt. 1, Glenwood.

Mr. Nelson works at Dorsey Trailers. The staff at Elba General, where she was born, fell in love with her and saw that she got all the nursing she needed. They made her a red dress for Christmas and painted "Wendy is our little angel" on the nursery window. Her parents were allowed to take her home on January 3rd.

Pictured with Wendy are Miss Ellen Carter who assisted Dr. Cooper in the delivery room on the morning of October 15th and Head nurse Evelyn Duncan, right.

Elba Banker Named To Arts Council

LAMAR S. RAINER JR.

Lamar S. Rainer, Jr., president of the Peoples Bank, has been named to the Alabama Council on the Arts for a two year term. The appointment was made last Wednesday by Governor Lurleen Wallace.

There are 15 members of the newly appointed Arts Council. This council, established last summer by the Alabama legislature, will have the task of "insuring that the role of the arts in the life of our communities will continue to grow and will play an even more significant part in the welfare and experience of our citizens."

This means that they will encourage public participation and respect in the performing of fine arts.

The official state agency has a \$50,000 appropriation and will receive matching funds from the National Foundation of the Arts.

Other members of the group are William C. Surgeon of Mobile, Chairman; Mrs. David Roberts III, Birmingham as Vice Chairman; James Hatcher, Birmingham, Mrs. Houston Glover, Huntsville; Mrs. Warren Brunk, Albertville; Mrs. Franklin McCarnay, Anniston; Senator Jack Giles, Madison, Ala.; Carl Strong, Eufaula; Dr. James J. Hicks, Birmingham; Lawrence Rosenbaum, Auburn University; Aubrey Green, York; Dr. David Owensby, Evergreen, Mrs. Howard E. Ehaney and Mr. James Nelanson, both of Montgomery.

Crash Of Helicopter Kills One Pilot

An instructor pilot was killed and two student pilots were slightly injured early Monday morning when their UH-1 Huey helicopter crashed at a training field near Danley Cross Roads.

The dead man was identified as Major Morgan L. Phillips, age 34, of Ft. Smith, Arkansas, who completed a tour in Vietnam last October.

The students werearrant Officer candidates Robert L. Fussell, Jr., Jacksonville, Florida and Sam L. Young, Little Rock, Arkansas.

Phillips is survived by his wife, Mrs. Patricia Phillips and four children, age 4 to 9. They reside at Ft. Rucker.

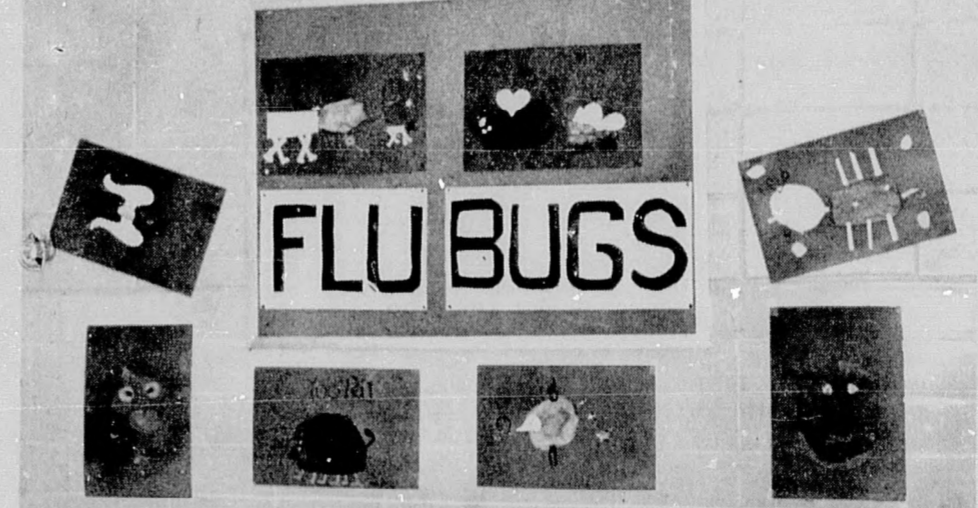

The aircraft landed upside down but did not burn. Reports indicate that Phillips was killed by a rotor blade striking him and breaking his neck.

Bloodmobile Coming

The Red Cross Bloodmobile will visit Elba on January 15th according to p.m.

First Coffee County Blood chairman, Mrs. Evelyn Duncan, Mrs. Evelyn has announced that a goal of needs and those of your blood donors will be met—whether the need is for one pint or for a hundred pints, the bloodmobile will be located at the Westside Baptist Church on Monday from twelve noon until 6 p.m.

By donating a pint of blood every six months you can insure that your blood will be raised to \$98, an increase of \$12 a month. The average couple's benefit, now \$145, will go up to \$165; and the average aged widow's benefit will

The Flu bug is going around Elba these days and art students of Mrs. Mary Collier at the Elba Elementary School were asked to draw their impression of what the "Ole bug" looked like. This display of posters by 5th grade students of Mrs. Wilkes is a sampling of what to watch for.

Post Office Is Short Of Stamps

The Elba post office personnel have been in quite a dilemma during the first part of this week due to the increase in postal rates. The law states that a letter must have a six cent stamp and the post office does not have enough of them to meet the demands. Postmaster Robert Cooper was asking postal patrons to only buy the amount they needed for that day hoping more stamps would be received this week.

Cooper was well pleased with the co-operation of the buying public, but stated that unless the new shipment of one cent and 6 cent stamps were received the post office would run out by Thursday (today).

He had no comment as to what action would take place at that time.

Registrars Meet

The Coffee County Board of registrars has released the schedule of meeting dates for the month of January. The include five days each in both Elba and Enterprise.

January 22, 23, 24, 25 and 26 the group will be receiving voter applications in Elba.

AUBURN UNIVERSITY RELEASES DEAN'S LIST

Deans of Auburn University's academic schools Cy L. Helms, Education; Joseph Edwin Johnson and graduates on their honor rolls for the fall quarter engineering; Jack; Larry E. Engertson, Engineering; The honor students from Kinross; Roy Robert Rogers this area are: Enterprise; ers, Engineering.

Elba firemen were "Johnny on the spot" recently when Mr. and Mrs. Paul Morrow discovered fire in the wall near a chimney in their home on Buford Street.

Swinging the fire ax is Elba Fireman Flournoy Whitman. The fire was extinguished but the house suffered extensive smoke damage.
